

Feature

- Simple & Easy Operation!!
- Accurate Sharpening-Angle and centering: 15, 30, 45, 60, 75, 90, 105, 120 deg., are available with high repeadability. Easy and Acurate Centering of Tungsten electrodes, since chucking position of Tungsten Electrodes is closed to the sharpening point.
- Economical: Since the table of diamond disc is provided with slide mechanism, all surface of diamond disc can be used.
- Quick heat conduction & Long Life!! Owing to our original mechanism of heat conduction, the sharpening heat is conducted quickly. Resulting, tungsten electrode is not to oxidize by sharpening heat.
- Excellent Operability & Safety: Diamond disc can be exchanged easily without any tools, and a transparent protection cover is provided above grinding disc for safety.
- Min. 20mm length: 20mm length of tungsten electrode can be sharpened.

■ Specification

Model	TA-60XW
Power Supply	AC 220V., 1-Phase
Frequency	50/60Hz
Rated Rotation	2500/3000 r.p.m.
Rated Output	60W
Duty Cycle	Continuous Duty
Size	102 x 245 x 195mm
Weight	4 kgs

■ Standard Accessories

Main Unit	1 set
Collet	For Φ 1.6mm & Φ 2.4mm (1 pce each)
Diamond Disc	1 pce

■ Options

Collet
Φ 1.0mm, 2.0mm, 3.2mm, 4.0mm, 4.8mm

Angle Adjustment

Sharpened Electrodes
